

## **217 Trapper Lane 1994 Sunline Camper operating status**

The following systems are in working condition:

- Air conditioner
- Refrigerator and freezer
- Gas stove
- Gas oven
- Microwave
- Radio
- Sink and shower, draining to the forest
- All windows and vents work as designed.

The following are inoperative or have been removed or modified:

- The gas furnace no longer ignites.
- The toilet was removed and the black water tank sealed at the floor. The tank can be unsealed and used with a new toilet.
- The vanity sink was removed and replaced with a counter top.
- The hot water tank was removed. The plumbing was modified with the addition of external connectors for a portable propane instant hot water heater (not included).
- The electric water pump does not work. The trailer operates on well water pressure supplied by a hose from the well.
- The deadbolt lock does not work.
